American Heritage™

A classically-styled mailbox featuring the traditional American design elements of rope braids and stars. The American Heritage body has a distinctive silver-vein texture and presents a very strong and elegant look.

Unique Features:

- Solid Cast Decorative Aluminum Door
- Textured Coating
- Extra-large Capacity
- Seamless Reinforced Ribbing
- Model Number: USBXX060407

(Post Sold Separately)

Western™

This rugged western-styled mailbox features design elements of an Old West stagecoach strong box with straps, rivets and oversized brass-finish handle pulls.

Unique Features:

- Hand-smithed Decorative Steel Door (from a single seamless sheet of steel)
- Street and Yard Side Opening Doors (access mail without walking into the street)
- Oversized Front and Rear Door Pull Handles
- Extra Large Capacity
- Model Number: UWWRX060401

Streetside & Yardside Mail Access

(Post Sold Separately)

Defender™

This mailbox is the ultimate roadside warrior, tough enough to defend against roadside hazards and resist vandalism. With a mill-formed reinforced diamond plate steel shell this model may possibly be the strongest mailbox anywhere! The Gladiator has a distinctive spear tipped flag that displays readiness for roadside duty.

Unique Features:

- Diamond Plate Reinforced Steel Shell
- Weather Barrier Door™ (patents pending)
- Oversized Front and Rear Weather Cowling Shields
- Welded Form to Function Solid Steel Bar Handles
- Model Number: UBBDX060403

Diamond Plate Reinforced (Patents Pending)

(Post Sold Separately)

Centurion™

With a mill-formed plate steel shell this mailbox is uncommonly durable. The Centurion's intrinsic strength and uncommon style sets it apart as an elegant defense against roadside hazards and vandalism. This model also features our new Weather Barrier Door™ that keeps moisture out and a distinctive spear tipped flag that displays its' readiness for roadside duty.

Unique Features:

- Steel Plate Reinforced Shell
- Weather Barrier Door™ (patents pending)
- Oversized Front and Rear Weather Cowling Shields
- Welded Form to Function Solid Steel Bar Handles
- Model Number: UBBXX060404

Celtic Post and Bracket Kit:

The simple repeating arches of handsmithed steel rod form an attractive Celtic design theme compatible with any mailbox style. The Celtic Post Kit is made from sturdy 1" channel tube steel. Vertically oriented sliding adjustable brackets make the Celtic Post a stable universal mounting solution.

Unique Features:

- 1" Channel Tube Steel Reinforced with ¼" Hand-smithed Steel Rod
- Mailbox Length Adjustable Mounting Brackets to 14"
- Mailbox Width Adjustable Mounting Brackets from 6" to 8 ½"
- Model Numr: UBXXX060408
